Plant and Human Pain

Dates	2021 - 2022
Author	Nika Sandler
Topics	Fine Art, Editorial

I think, like modern biologists, that plants feel pain. They found out that plants secrete substances that suppress it and react to anesthetics like animals and people.

I think, like modern biologists, that plants feel pain. They found out that plants secrete substances that suppress it and react to anesthetics like animals and people.

In my works, I show plants unconventionally beautiful: painful, dying, dead. I compare the external manifestations of their illnesses and deaths with the bodily suffering and dying of people. Thus, I try to find common ground between the tragic side of plant and human existence.
